

Greetings to you,

In today's competitive business world, affordable and smooth credit plays an important role in the growth of any industry. The need for such timely finance is of utmost importance to every business to grow, and sustain in today's global market place.

Keeping this in mind, we at RESOURCE UNLIMITED, endeavour to make the process of acquiring such finance from the open market as easy as eating a cake. The only thing that you need to do is to entrust the baking to us.

Why RESOURCE UNLIMITED?

But naturally this question would pop up in your mind, why RESOURCE UNLIMITED?

Let me answer this crucial question.....

RESOURCE UNLIMITED is a professionally managed company, founded by like-minded financial professionals who have joined hands to simplify the process of sourcing affordable and timely funds, for the growth of an ever-growing business entity like yours.

The collective experience runs into about 30 years in finance and financial products, with a credit of designing few good derivatives in the field of term loans, which were implemented successfully by leading financial institutes and NBFCs.

The process

The process of acquiring fast and lucrative funds would involve.....

- *An in-depth study of your organisation at the micro level, and the industry at the macro level, to enable us to come at a fair understanding of the dynamics involved in the business environment in which your company flourishes.*
- *Creation of a deal background which gives an insight, which we gain in the course of our in-depth study, in a most readable kind of brief, that any lay man would understand. The deal background would include the following:*
 - *Profile of the promoters.*
 - *The journey of the organisation.*
 - *The present business and socio-economic environment that is most relevant to the industry as a whole, and the impact of it on your company in particular.*
 - *And last but not the least the vision and the growth plan of the promoters.*
- *All the required documentation, project report and projections would be compiled keeping in mind at all times, the time frame under which we would like to have these funds raised.*
- *On compilation of the above inputs, the proposal would be presented to various banking and financial institutes, as well as HNIs who would be all the more keen in being the part of a successful growth story.*
- *We would at the same time, keep you informed, through a weekly report on the status of your proposal and the need for further action.*

What are our credentials?

We are proud to have associated with all those clients, who are leaders in their respective fields. We have been associated with them in various capacities and continue to do so. The list is ever expanding and hence, we choose to mention a select few.

We would also like to mention here that those companies which we have not mentioned here are equally important to us, but may not be relevant to your industry; hence we have chosen to mention a select few. In case you need a full list of our associations we would be all the more happy to send them to you.
